AYMAX'S VALUES

Aymax has been driven by 5 strong values since its creation

These are not only inscribed on our brochures, they are fully anchored in the daily professional life of every employee of the company.

EFFICIENCY

EFFICIENCY

AGILITY

AGILITY

SHARING

SHARING

WELLNESS

WELLNESS

INNOVATION

INNOVATION

Values that must be reflected in our commitments

Moral commitment

We owe it to ourselves to evolve with our customers and employees with strong ethics and moral values.

Human commitment

Aymax is a participatory organisation multi-cultural, centred on the individual and his/her skills whose experiences are shared to improve the collective's expertise on a daily basis.

Professional commitment

While remaining agile and pragmatic, we put forward an innovative and constant technical excellence for the satisfaction of our customers.

Commitment to society

We respect our environment and the social concerns that surround us by adopting ecological and sustainable practices on a daily basis.

CUSTOMER TESTIMONIALS

SAP IMPLEMENTATION PROJECT

I had the opportunity to request Aymax's services, mainly to support my phase of deployment and support of users at the beginning on SAP WM (Warehouse management) activities.

As our needs changed over the weeks depending on the sites, they showed flexibility, responsiveness and professionalism to be there and meet our requirements during this key period.

CYRIL PARDELLE

Transport & Logistic program transformation
Leader-Groupe Avril

SAP IMPLEMENTATION PROJECT

We have been working with Aymax consultants for one year for our major projects. The collaborators that are proposed to us are well trained, correspond to the required expertise and integrate very quickly into our teams. This level of SAP service and the excellent commercial reactivity no longer make us fear turnover.

XAVIER POIRSON

SAP Project Manager - Logista France

SAP FIORI APPLICATION PROJECT BUSINESS RETAIL

We had the opportunity to work with AYMAX initially on TMA and, satisfied with the quality of the work of the competent consultants, we decided to call upon their services on other structuring projects. We are delighted with this collaboration, which is now on a long-term basis.

RACHID MALKI

IS Supply Chain Manager - Information Systems Director
Picard

IMPLÉMENTATION D'APPLICATIONS SAP FIORI

We have been working with Aymax for more than a year. Very quickly we met men and women with profiles perfectly adapted to our needs. Their skills as technical experts, combined with those of Bouygues Telecom employees, have made many logistics projects a success. In addition to a reliable, competent team, it is the young, dynamic, committed and proactive players who provide us with the best solutions on a day-to-day basis, and who are always up to date with market best practices.

NADÉGE PALOU

Project Manager - Bouygues telecom
